

Wayne Griswold, PE

As a past director and hopefully future director in 2022, I appreciate your vote to continue my growing involvement with the chapter. As the leading organization in our industry, I'm passionate about involvement on a local level of SFPE. To date my roles on the board include determining technical topics and presenters for the annual symposium. In 2021, I also took on the role of corporate sponsor liaison which has resulted in an increase in corporate sponsors for the organization. Your vote provides me the ability to continue these roles and further grow within our chapter.
