

SOCIETY OF FIRE PROTECTION ENGINEERS
Rocky Mountain Chapter

Corporate Sponsorship Program

The Rocky Mountain Chapter (RMC) of the Society of Fire Protection Engineers (SFPE) is proud to announce our 2022/2023 corporate sponsorship program which runs from June 1, 2022 to May 31, 2023. The intent of this program is to raise additional funding from industry related local businesses in order to support new chapter initiatives, events, and scholarships. The corporate sponsorship program allows our sponsors to provide financial support anytime throughout the fiscal year. The program has been subdivided into four tiers of sponsorship, where funding can be applied generally or to specific events.

The Annual Fire Protection Symposium is our signature event and primary fundraiser benefitting the RMC Academic Scholarship Fund. The symposium is held every spring and is consistently attended by up to 60 individuals from various related industries such as installers, owners, engineers, fire service, and building officials. In addition, a reception is held immediately after the symposium to encourage professional networking among the local fire protection communities.

If your company is interested in becoming a corporate sponsor, please contact Wayne Griswold at wgriswold@terpconsulting.com.
